Please submit your [abstract](#) before May 15th, 2006

jointly with

10th ECALAS (ECATA Alumni Association) International Aerospace Seminar on

Aerospace Industry Globalization: New challenges & Skills for International Program Management

Programme Committee :

- | | |
|------------------------|---|
| - Jean-Marc THOMAS | General Manager Airbus France S.A.S |
| - Dieter SCHMITT | Vice-President AIRBUS Research & Technology |
| - José d'ANTIN | Director SUPAERO Toulouse |
| - Rodrigo MARTINEZ-VAL | ECATA President - ETSIA Madrid |
| - Jean-Luc GALVANI | ECALAS President - EADS |

The 10th ECALAS International Aerospace Seminar aims to :

- deal with issues on which the European Aerospace industry needs to keep up in order to improve its competitiveness in front of the growing pace of globalization of economics, market and operations,
- give an insight of aerospace companies policy and strategy for addressing the issues around international program management, including human resources and trainings aspects,
- provide an overview of needs and opportunities for skills development within the Aerospace Industry linked to the increasing number and size of aerospace international programs,
- address issues related to development of co-operations and partnerships,
- assess impact on fast evolving procurement & supply chain environment,
- enable participants to exchange on best practices by bringing together executives, high level managers & experts from industry, universities, institutions and ECALAS members.

Scope : Papers covering following areas of International Program Management are invited:

- **Best practices & expected trends in aerospace programs**
- **Education, cultural and skills development issues**
- **Organisation evolution and change aspects to best fit future programmes challenges**
- **Issues / requirements linked to enlargement of partnerships and supply chain**
- **Human resources and training challenges for international program management**
- **State of the art / benchmark from non-aerospace industry**

Conference Location : Day 1 (Oct. 5th, 2005) : SUPAERO (Toulouse)
Day 2 (Oct. 6th, 2005) : Airbus facility (Toulouse)

Visit : The seminar programme will include an optional visit of the A380 Final Assembly Line.

10th ECALAS International Aerospace Seminar

Aerospace Industry Globalization: New challenges & Skills for International Program Management

Draft Agenda

Oct. 5th, 2006 : *Location : SUPAERO Auditorium - Toulouse*

ECALAS General Assembly (for ECALAS members only)

Morning

Arrival and seminar registration

ECATA / ECALAS Anniversary Celebration

Lunch

Afternoon

Seminar opening – Key note speech

Seminar session – Part 1 (Speakers presentation, discussion)

Closing & transfer to hotels

Evening

Dinner

Oct. 6th, 2006 :

Location : Airbus-France Auditorium Saint-Exupéry – Toulouse Saint-Martin

Morning

Transfer to Airbus facility

Seminar session - (Part 2) (Speakers presentation, Panel discussion)

Seminar closing

Lunch

Afternoon

Transfer to J-L Lagardère plant - Visit : A380 Final Assembly Line

Transfer to Airport and Hotels

[How to participate as a speaker in the seminar ?](#) If you are interested in the seminar topics and you wish to contribute as a speaker in the seminar, you are invited to submit your presentation abstract to the Programme Committee by **May 15th, 2006** (click on link [abstract](#)).

The Organizing Committee will inform you on the acceptance of your abstract by **June 2nd, 2006**.

jointly with

ECALAS : ECATA ALumni ASsociation

Summary :

Created in 1992 as a non profit association under the French Law 1901
 A growing Network of more than 250 ECATA Alumni throughout Aerospace Industry
 Global reach of mobile and experienced Alumni in Europe and worldwide
 Helping former ECATA delegates to stay in touch with one another
 Getting added value by leverage of expanding connections
 Promoting European Cooperation and Networking

ECALAS organises, in association with ECATA and Aerospace companies, on annual basis international aerospace seminars bringing together executives, high level experts from industry, universities, institutions, and ECALAS members, for debating on topics of particular interest for the aerospace industry sector and its environment

Previous seminars organized by ECALAS :

- | | |
|--------------------------|---|
| - Hamburg (1996) | <i>Educational needs in European aerospace companies in changing scenario</i> |
| - Paris (1998) | <i>How EU aerospace industry will adapt through new products & structures to face recent evolutions in US aeronautical industry ?</i> |
| - Warton/Broughton(1999) | <i>Civil & military aircraft customer values & requirements</i> |
| - Naples (2000) | <i>How do we keep with change in Aerospace Industry ?</i> |
| - Munich/Manching (2001) | <i>Maintenance, future aerospace after-sales business</i> |
| - Bordeaux (2002) | <i>Transatlantic Co-operations</i> |
| - Lisbon (2003) | <i>Extended Enterprise – Risk Sharing Partnership</i> |
| - Sevilla (2004) | <i>Synergies between Civil & Military approaches in Aerospace</i> |
| - Linköping (2005) | <i>Asian perspectives & new challenges for the European Aerospace Industry</i> |

The **ECATA** consortium (**E**uropean **C**onsortium for **A**dvanced **T**raining in **A**erospace) runs a yearly training course: **European Aerospace Business Integration Programme**, and is organised around the seven main European Aerospace Universities : **Cranfield University** (UK), **University of Pisa** (I), **ENSAE-Sup'Aéro Toulouse** (F), **ETSIA Madrid** (Sp), **Technical University of Munich** (Ge), **KTH Stockholm** (S), **University of Technology Delft** (NL) in association with industrial partners such as **Airbus**, **Aermacchi**, **Alenia Aeronautica**, **BAE Systems**, **Dassault Aviation**, **EADS**, **Saab Aerospace**.
